

# Man on a Mission to Spread Health & Support to Veterans

By Joe Doran

Joseph V. Cassarino, a business consultant and adviser from Rhinebeck, New York, built many successful businesses over his lifetime and in retirement he founded Nas Business Solutions and Consulting, Inc. Along the way, Cassarino met the inventor of ProlImmune - Immune Formulation 200, Dr. Albert B. Crum (M.D. MS, D. Sci-Hon) several years ago and was intrigued by the man and his professional work. In turn, Dr. Crum was intrigued and impressed by Cassarino's background, knowledge of the sciences and his many business accomplishments.

A graduate of Harvard Medical School, Dr. Crum is renowned both for his biochemistry research and concern for humanity. He was awarded a Harvard Medical Student Research Fellowship, merited Honor grades for his research, holds a Master of Science degree from New York University, and a Doctor of Science (Hon.) degree from the University of Redlands in California.

Dr. Crum has been called into counsel with many world leaders, including Pope John Paul II, now Pope Saint John Paul II, His Holiness the Dalai Lama and many others.

In 1974, Dr. Crum, a nonsectarian, was awarded the Pope John XXIII (now Pope Saint John XXIII) Gold Medal with a sacred embedded Relic of Pope Saint John XXIII. He served as co-chair of the U.S. Coordinating Committee supporting the nomination of His Holiness the Dalai Lama XIV of Tibet for the

Joseph V. Cassarino

Nobel Peace Prize. Dr. Crum is also a 2018 Albert Nelson Marquis Lifetime Achievement Award recipient.

"Dr. Crum made his groundbreaking scientific discovery over many years of laboratory research," says Cassarino. "ProlImmune - Immune Formulation 200 is a scientific formula that he worked

on to discover glutathione synthesis, and his motivation was that he always felt that there should be a way where the [human] cell could make its own glutathione exactly as nature intended."

Having experienced the benefits of a special and innovative health product, Cassarino was honored when

Dr. Crum eventually tapped him to become a distributor for ProlImmune.

He's finding fulfillment in leveraging his previous experiences, building successful companies on a project that can change people's lives dramatically for the better. Cassarino understands the tremendous health benefits glutathione does to support health, especially for veterans' issues. "Many veterans are suffering from health conditions, and proper nutrition such as glutathione supports most of the conditions veterans suffer from. Glutathione replenishment is associated with reducing toxins and heavy metals and supporting natural healing from traumatic brain injuries, post-traumatic stress and so much more including maintaining A1C levels in normal range."

Cassarino suggests that veterans can research the benefits of glutathione with the name of whatever is troubling them on Google and discover research reports from the PubMed website that will help them understand how glutathione is depleted in many conditions and how nutritional replenishment supports healthy recovery.

Cassarino has developed a website ([thebestimmunesupport.com](http://thebestimmunesupport.com)), reviewed and approved by an FDA subject-matter expert for compliance, that provides excellent information about the benefits of ProlImmune - Immune Formulation 200 and natural glutathione creation. The website also offers a streamlined

purchasing experience, with discounts where customers can receive free fast shipping on orders.

"I put so much additional education concerning the product on the website," says Cassarino. "There's science, data, and links to the National Institutes of Health reports that explain the importance of what glutathione does. Dr. Crum's discovery provides optimal glutathione replenishment. It's already a highly successful product. However, that doesn't mean everybody knows about it."

Cassarino continues, "A lot of people are buying glutathione directly, or other forms such as n-acetyl cysteine (NAC), because they've never heard that there's a product superior to glutathione or NAC because NAC, by the way, loses 40% to 50% on its way into the cells in the digestive system

Dr. Albert B. Crum

and ProImmune - Immune Formulation 200 is produced inside of the cells and is the most efficient method of action. The bottom line is, the average person has no awareness of glutathione. I didn't, before I met Dr. Crum four years ago. I didn't

know how important glutathione is or what it is, and Dr. Crum's discovery is available for all who understand the importance of supplementing with a superior glutathione precursor to help efficiently replenish depleted glutathione levels."

Says Cassarino, "I know what ProImmune does. I've sat with the top scientists in the world at meetings with Dr. Crum's colleagues. And they're blown away by the science. So, if the top scientists say this is the best thing out there, that's why I came out of retirement. I'm 65 years old. I should be in the Bahamas right now but instead, I am helping introduce an amazing formula so that people and especially veterans, who sacrificed long and hard for us, can discover an optimal way to improve overall health on levels that may seem to be too good to be true but are true!"

ProImmune - Immune Formulation 200 is available at [thebestimmunesupport.com](http://thebestimmunesupport.com) with free shipping and a discount on orders of six jars. ProImmune - Immune Formulation 200 will also be available on Amazon in late spring 2023.

## The #1 Immune Support Sweeping The World ProImmune® - Immune Formulation 200®

The Authentic Premix in a Powder for Bodily Glutathione - The Master Antioxidant

- Supports Healthy Inflammation Responses\*
- Nutrition to Strengthen The Immune System\*
- Supports Detoxing In The Liver And Cells\*
- Supports Quality Of Sleep\*
- Helps With The Effects Of Stress\*
- Supports Mental Focus and Clarity\*
- Helps Reduce Oxidative Stress and Toxins\*
- Nutrition For Athletic Performance\*
- Supports Muscle and Joint Recovery\*
